N°001	Art direction & visual production Images, illustrations, graphic variations, page templates: production itself is covered, not just publishing.
N°002	Continuous improvement & new features Journey redesigns, third-party integrations, new features: the product moves forward every month, without a quote for each request.
N°003	SEO execution The monthly report's recommendations are actually implemented: content writing and optimisation, page structure, internal linking, technical fixes.
N°004	Design system evolution Components, styles and templates keep pace with the product — no graphic debt piling up as features are added.
